

As a citizen of this great nation, I feel that Sinclair Broadcasting is making a grave injustice against the people of the United States in airing "Stolen Honor", a film that is sharply one-sided in its dealings. When looking back at Sinclair's earlier decisions as well as to which political candidate they are sending funds to, it is not hard to see how biased they are. This is blatantly harmful to our democracy and against public interest as it is a prime example of partisanship. I implore you to make the same judgement as I have and take action against Sinclair by stopping this airwave pollution. Thank you.
